

### Network Partition

Network Policy

```
ingress:
  send-node-a: enabled
egress:
  receive-node-a: enabled
```

Node

```
node: a
```

Network Policy

```
ingress:
  send-node-b: enabled
egress:
  receive-node-b: enabled
```

Node

```
node: b
```

### Unidirectional: A to B

Network Policy

```
ingress:
  send-node-a: enabled
egress:
  receive-node-a: enabled
```

Node

```
node: a
send-node-b: enabled
```

Network Policy

```
ingress:
  send-node-b: enabled
egress:
  receive-node-b: enabled
```

Node

```
node: b
receive-node-a: enabled
```

### Bidirectional

Network Policy

```
ingress:
  send-node-a: enabled
egress:
  receive-node-a: enabled
```

Node

```
node: a
send-node-b: enabled
receive-node-b: enabled
```

Network Policy

```
ingress:
  send-node-b: enabled
egress:
  receive-node-b: enabled
```

Node

```
node: b
send-node-a: enabled
receive-node-a: enabled
```
